Committee Updates

1. FNC – *Jessica Wenclewicz / Ashley Mantica* – FNC funds will be reconcentrated towards tech updates for the school as covid funding has been depleted, this is in line with the original goal of the FNC prior to state and federal grants due to the pandemic.

Classrooms are encouraged to submit art projects for the silent auctions. Reps should reach out to teachers after break to promote communication. Most teachers will already have their project idea but may need help with parent volunteers and securing supplies. All expenses can be reimbursed. Baskets from parents and local companies will still be welcomed. FNC is projected to be a great success with some sections scaled back to accommodate with the incoming and outgoing coordinates.
